

Everyday Language & Literacy

**Easy, fun & inexpensive activities
for you and your child**

A Great School

Early Years Family Information

Dear Parents

Becoming literate is one of the most important journeys that your child will ever take, and you are the person who shares most of the journey with your child. You can start on the right course by providing language, reading and writing experiences from the earliest years of life all the way through school.

Family literacy takes place during daily routines in life as parents, children and family members use literacy at home and in their community.

Along with daily reading to and with your child, this booklet provides you with many fun, inexpensive ways to promote literacy in your home - everyday.

We hope this resource will be valuable for you.

If you have any questions, please do not hesitate to contact us at the Bet Haya'eled office at 905-889-3998, ext. 2.

Sincerely,
